

COURSE OVERVIEW ME0020 Certified Boiler Operation, Maintenance & Water Treatment Technology

Course Title

Certified Boiler Operation, Maintenance & Water Treatment Technology

Course Date/Venue

October 27-31, 2024/Pera Meeting Room, Taksim Square Hotel, Istanbul, Turkey

Course Reference

ME0020

Course Duration/Credits

Five days/3.0 CEUs/30 PDHs

Course Description

This practical, highly-interactive course includes various practical sessions and exercises. Theory learnt will be applied using our state-of-the-art simulators.

This course provides a comprehensive coverage of the modern high-pressure boilers. It has been completely revised, reorganized and updated to include the latest techniques in boiler operation, maintenance, water treatment, performance, optimization, inspection, control, troubleshooting, safety, emission and steam system management. Sections on boiler water treatment are now included in the course. The course utilizes actual case studies from around the world to highlight the topics discussed.

The course provides practical information that can be readily applied to pinpoint and minimize energy losses in boiler plants and energy distribution systems. Participants will be guided through their plant system component by component, showing exactly where and how performance can be improved. Facts will be given on different fuel types and firing methods, and how modern high-efficiency boiler designs and control systems work.

Following easy-to-implement guidelines and helpful time-saving diagrams, participants will go over strategies to methodically achieve the maximum utilization of fuel and energy to keep operating costs low and equipment performance high.

Course Objectives

Upon the successful completion of this course, each participant will be able to:-

- Apply an up-to-date knowledge, skills and systematic techniques in boiler operation, inspection, maintenance, safety & water treatment, troubleshooting, performance, optimization and steam system management
- Implement the technology for boiler water treatment including laboratory control of boiler water chemical analysis results
- Pinpoint and minimize energy losses in your boiler plant and improve its performance and efficiency
- Employ systematic techniques in boiler maintenance, inspection, testing, control, operation, tuning, start-up and shutdown and troubleshoot your boiler system in a safe manner and clean environment

Who Should Attend

This course provides an overview of all significant aspects and considerations of boiler operation, inspection, maintenance, safety & water treatment technology for utility superintendents, power house supervisors, maintenance engineers, design engineers, corrosion engineers, plant engineers, metallurgists, materials engineers, boiler engineers, supervisors and other technical staff. Further, reliability, mechanical integrity and safety engineers will also benefit from this important course.

Training Methodology

All our Courses are including **Hands-on Practical Sessions** using equipment, State-of-the-Art Simulators, Drawings, Case Studies, Videos and Exercises. The courses include the following training methodologies as a percentage of the total tuition hours:-

- 30% Lectures
- 20% Practical Workshops & Work Presentations
- 30% Hands-on Practical Exercises & Case Studies
- 20% Simulators (Hardware & Software) & Videos

In an unlikely event, the course instructor may modify the above training methodology before or during the course for technical reasons.

Course Fee

US\$ 6,000 per Delegate + **VAT**. This rate includes Participants Pack (Folder, Manual, Hand-outs, etc.), buffet lunch, coffee/tea on arrival, morning & afternoon of each day. In addition to the Course Manual, participants will receive an e-book “*Boiler Operator’s Guide*”, published by McGraw-Hill Professional.

Accommodation

Accommodation is not included in the course fees. However, any accommodation required can be arranged at the time of booking.

Course Certificate(s)

(1) Internationally recognized Competency Certificates and Plastic Wallet Cards will be issued to participants who completed a minimum of 80% of the total tuition hours and successfully passed the exam at the end of the course. Certificates are valid for 5 years.

Recertification is FOC for a Lifetime.

Sample of Certificates

The following are samples of the certificates that will be awarded to course participants: -

- (2) Official Transcript of Records will be provided to the successful delegates with the equivalent number of ANSI/IACET accredited Continuing Education Units (CEUs) earned during the course.

Maricel De Guzman
Academic Director

Haward Technology has been approved as an Authorized Provider by the International Association for Continuing Education and Training (IACET), 2201 Cooperative Way, Suite 600, Herndon, VA 20171, USA. In obtaining this approval, Haward Technology has demonstrated that it complies with the ANSI/IACET 1-2013 Standard which is widely recognized as the standard of good practice internationally. As a result of their Authorized Provider membership status, Haward Technology is authorized to offer IACET CEUs for programs that qualify under the ANSI/IACET 1-2013 Standard.

Haward Technology's courses meet the professional certification and continuing education requirements for participants seeking Continuing Education Units (CEUs) in accordance with the rules & regulations of the International Association for Continuing Education & Training (IACET). IACET is an international authority that evaluates programs according to strict, research-based criteria and guidelines. The CEU is an internationally accepted uniform unit of measurement in qualified courses of continuing education.

Haward Technology is accredited by

P.O. Box 26070, Abu Dhabi, United Arab Emirates | Tel.: +971 2 3091 714 | Fax: +971 2 3091 716 | E-mail: info@haward.org | Website: www.haward.org

Certificate Accreditations

Certificates are accredited by the following international accreditation organizations: -

- 

The International Accreditors for Continuing Education and Training (IACET - USA)

Haward Technology is an Authorized Training Provider by the International Accreditors for Continuing Education and Training (IACET), 2201 Cooperative Way, Suite 600, Herndon, VA 20171, USA. In obtaining this authority, Haward Technology has demonstrated that it complies with the **ANSI/IACET 2018-1 Standard** which is widely recognized as the standard of good practice internationally. As a result of our Authorized Provider membership status, Haward Technology is authorized to offer IACET CEUs for its programs that qualify under the **ANSI/IACET 2018-1 Standard**.

Haward Technology's courses meet the professional certification and continuing education requirements for participants seeking **Continuing Education Units (CEUs)** in accordance with the rules & regulations of the International Accreditors for Continuing Education & Training (IACET). IACET is an international authority that evaluates programs according to strict, research-based criteria and guidelines. The CEU is an internationally accepted uniform unit of measurement in qualified courses of continuing education.

Haward Technology Middle East will award **3.0 CEUs** (Continuing Education Units) or **30 PDHs** (Professional Development Hours) for participants who completed the total tuition hours of this program. One CEU is equivalent to ten Professional Development Hours (PDHs) or ten contact hours of the participation in and completion of Haward Technology programs. A permanent record of a participant's involvement and awarding of CEU will be maintained by Haward Technology. Haward Technology will provide a copy of the participant's CEU and PDH Transcript of Records upon request.

- 

British Accreditation Council (BAC)

Haward Technology is accredited by the **British Accreditation Council for Independent Further and Higher Education** as an **International Centre**. BAC is the British accrediting body responsible for setting standards within independent further and higher education sector in the UK and overseas. As a BAC-accredited international centre, Haward Technology meets all of the international higher education criteria and standards set by BAC.

Course Instructor(s)

This course will be conducted by the following instructor(s). However, we have the right to change the course instructor(s) prior to the course date and inform participants accordingly:

Mr. Yasser Almasood is a **Senior Mechanical and Maintenance Engineer** with almost over **20 years** of extensive experience within the Oil & Gas industries. His wide expertise covers in the areas of **Boiler Operation & Maintenance, Water Treatment Technology, Boiler Instrumentation & Control, Valves, Piping System, Tank, Vessel, Boiler and Turbine Installation, Boiler Operations & Performance, Gas Processing Calculation, Process Reactor Operation & Troubleshooting, Catalytic Reactors, Heat Exchanger, Distillation Columns, Pumps, Distributed**

Control System (DCS), Catalytic Reformer Unit, Polymerization, Dehydrogenation, Gas Processing Plant Operations & Control, Gas Processing Monitoring & Troubleshooting, Process Plant Start-up Commissioning & Troubleshooting, Process Plant Optimization & Energy Conservation, Process Equipment Design & Troubleshooting, Advanced Operation Skills, Refinery Process Yield Optimization, Oil & Gas Processing, Troubleshooting Oil & Gas Processing Facilities, Polymers & Polymerization, Applied Process Engineering, Process Plant Troubleshooting & Engineering Problem Solving, Process Plant Performance & Efficiency, Process Design & Optimization, Desalination Processes, Reverse Osmosis and Molecular Sieves. Further, he is also well-versed in **Process Analyzers & Analytical Instrumentation, Process Control, Instrumentation & Safeguarding, Process Controller, Control Loop & Valve Tuning, Industrial Distribution Systems, Industrial Control & Control Systems, Distributed Control System, Control Valves & Actuators, Advanced Process Control (APC) Technology, Process Control & Loop Tuning, Process Control & Automation, AspenTech, Aspen HYSYS, Pro II, exSILentia, OLGA, Flare System Analyzer, Aspen PIMS, DYNsim, RiskWISE, MS Office and IBM Maximo.**

During his career life, Mr. Yasser has gained his practical and field experience through his various significant positions and dedication as the **Senior Process Engineer, Process Engineer, Oil & Gas Process & Safety Instructor, On-Job Instructor, Process Senior Operator, Acting DCS Operator and Shift Controller** for various multi-national companies such as the ADNOC Gas Processing (**GASCO**), Conoco Phillips Gas Plant and Syrian Gas Company (SGC).

Mr. Yasser has a **Bachelor's** degree in **Petroleum Engineering**. Further, he is a **Certified Instructor/Trainer** and has further delivered numerous training, courses, workshops, seminars and conferences worldwide.

Course Program

The following program is planned for this course. However, the course instructor(s) may modify this program before or during the course for technical reasons with no prior notice to participants. Nevertheless, the course objectives will always be met:

Day 1: Sunday, 27th of October 2024

0730 – 0800	Registration & Coffee
0800 – 0815	Welcome & Introduction
0815 – 0830	PRE-TEST
0830 – 0930	Boiler & Boiler Systems Types of Boilers • Configurations & Characteristics of Each Type • Codes & Standards • How to Use Steam Tables • Circulation of Boiler Water
0930 – 0945	Break
0945 – 1100	Boiler & Boiler Systems (cont'd) Combustion • Boiler Fluid Flow Paths • Thermodynamics • Fuel • Air • Feedwater • Steam or Hot Water
1100 – 1215	Burners, Superheaters & Reheaters Gas Burners • Oil Burners • Combination Gas/Oil Burners • Gas & Oil Trains • Waste Heat Recovery
1215 – 1230	Break
1230 – 1420	Burners, Superheaters & Reheaters (cont'd) Superheaters • Reheaters • Attemperators Configuration & Characteristics of each Type • Relevant Metallurgy & Alloy Materials & Creep Factor
1420 – 1430	Recap Using this Course Overview, the Instructor(s) will Brief Participants about the Topics that were Discussed Today & Advise Them of the Topics to be Discussed Tomorrow
1430	Lunch & End of Day One

Day 2: Monday, 28th of October 2024

0730 – 0930	Boiler Instrumentation & Controls Modulating Control System • Fixed Positioning • Parallel Positioning with Operator Trim • Fuel & Air Metering • Oxygen Trim • Feed Water Control
0930 – 0945	Break
0945 – 1100	Boiler Instrumentation & Controls (cont'd) Primary Control Sequence of Operation • Flame Monitoring Devices • Y-S 7800 Control System • Fireeye Flame Monitor • Microprocessor based Burner Management System • Controls & Safety Devices for Automatically Fired Boilers • NFPA-85 Series
1100 – 1215	Boiler Startup & Shutdown Preparation for Startup • The Pre-Startup Walk Through • Filling the Boiler Drum • Establishing Flow through the Boiler • Establishing a Boiler Flame
1215 – 1230	Break
1230 – 1420	Boiler Startup & Shutdown (cont'd) Basic Shutdown Procedures • Reducing Firing Rate • Reducing Steam Flow • Reducing Air & Gas Flow • Maintaining Flow through Superheater
1420 – 1430	Recap Using this Course Overview, the Instructor(s) will Brief Participants about the Topics that were Discussed Today & Advise Them of the Topics to be Discussed Tomorrow
1430	Lunch & End of Day Two

Day 3: Tuesday, 29th of October 2024

0730 – 0930	Boiler Operation & Steam System Management Normal Operation & Steady State Conditions • Maintaining Design Steam Temperature & Pressure • Maintaining Proper Combustion Conditions
0930 – 0945	Break
0945 – 1100	Boiler Operation & Steam System Management (cont'd) Maintaining Proper Feed Water Conditions • Monitoring the Steam/Water Circuit • Safety Valves & Low Water Cutoff Control
1100 – 1215	Safety Valves & Low Water Cutoff Controls Codes & Standards • Set Pressures & Capacity • Control Blowdown Test • Slow Drain Test • Evaporative Test
1215 – 1230	Break
1230 – 1420	Boiler Water Chemistry & Treatment Boiler Feed Water Quality • Mechanical & Chemical Deriation • Boiler Water Chemical Selection & Dozing
1420 – 1430	Recap Using this Course Overview, the Instructor(s) will Brief Participants about the Topics that were Discussed Today & Advise Them of the Topics to be Discussed Tomorrow
1430	Lunch & End of Day Three

Day 4: Wednesday, 30th of October 2024

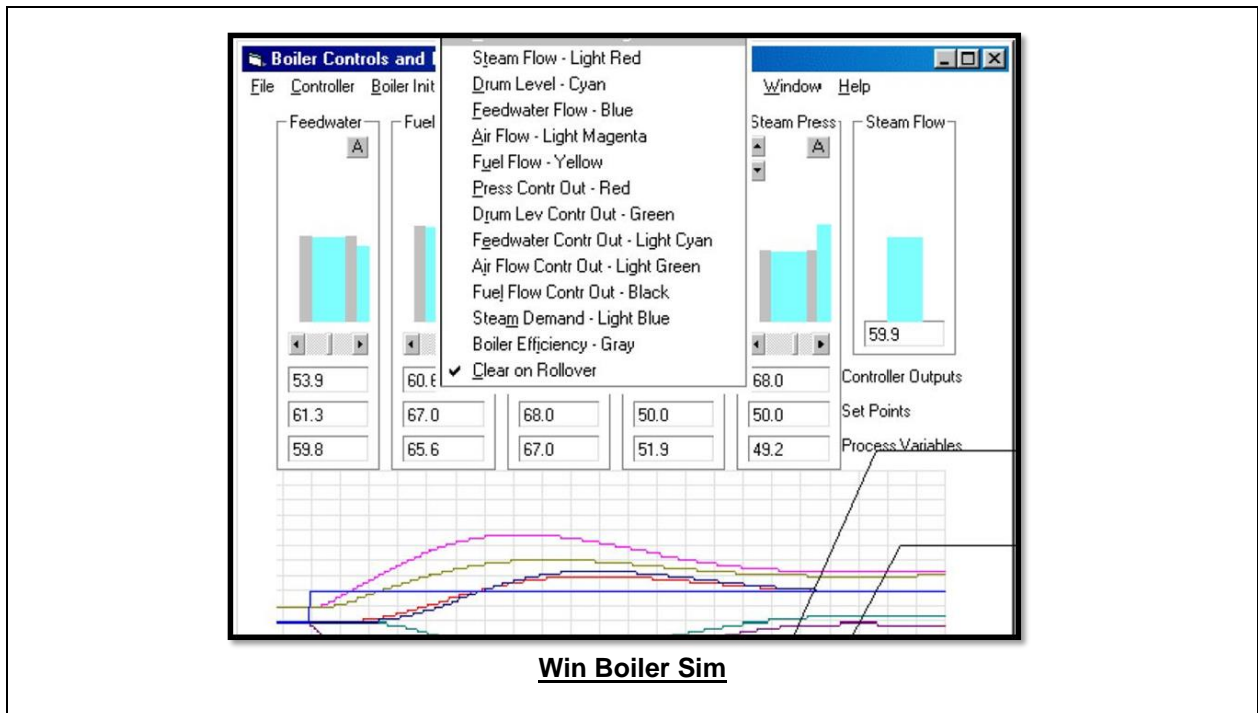

0730 – 0930	Boiler Water Chemistry & Treatment (cont'd) Steam Purity & Controlling Steam pH • Laboratory Control of Boiler Water Chemical Analysis Results • Sampling Boiler Water & Steam Produced
0930 – 0945	Break
0945 – 1100	Boiler Efficiency & Waste Heat Recovery Heat Exchanger Efficiency • Combustion Efficiency Data Collection • Optimum Oxygen Percentage • Optimum Stack Temperature • Waste Heat Recovery
1100 – 1215	Combustion Analysis & Tuning Procedures Combustion Efficiency Data Collection • Optimum Oxygen Percentage • Optimum Stack Temperature • Tips & Generally Accepted Practices
1215 – 1230	Break
1230 – 1420	Boiler Inspection & Testing Internal Inspection • External Inspection • Operational Inspection • Hydrostatic Pressure Test • Common Inspection Code Violations
1420 – 1430	Recap Using this Course Overview, the Instructor(s) will Brief Participants about the Topics that were Discussed Today & Advise Them of the Topics to be Discussed Tomorrow
1430	Lunch & End of Day Four

Day 5: Thursday, 31st of October 2024

0730 – 0930	Boiler Maintenance & Protection Waterside Maintenance • Fireside Maintenance • Operating & Safety Control Maintenance • General Maintenance • Daily Maintenance • Weekly Maintenance • Monthly Maintenance • Annual Maintenance • Preventive Maintenance
0930 – 0945	Break
0945 – 1100	Boiler Emissions & Pollution Control Six Criteria Air Pollutants • NOx & SOx • VOCs • Pollution Control Systems
1100 – 1215	Boiler Troubleshooting & Safety Steam Traps • Loss of Boiler Flame • Low & High water • Loss of Boiler Auxiliaries • Boiler leaks
1215 – 1230	Break
1230 – 1300	Boiler Troubleshooting & Safety (cont'd) Boiler Overpressure • Equipment Fires • Foaming • Lockout/Tagout • Confined Spaces • Boiler Accidents – Cause & Effect
1300 – 1315	Course Conclusion Using this Course Overview, the Instructor(s) will Brief Participants about the Course Topics that were Covered During the Course
1315 – 1415	COMPETENCY EXAM
1415 – 1430	Presentation of Course Certificates
1430	Lunch & End of Course

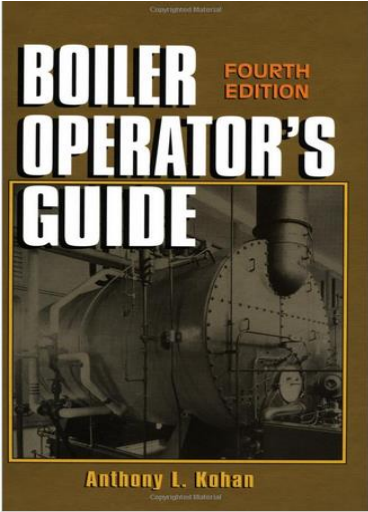

Simulator (Hands-on Practical Sessions)

Practical session will be organized during the course for delegates to practice the theory learnt. Delegates will be provided with an opportunity to carryout various exercises using the simulator “Win Boiler Sim”.

Book(s)

As part of the course kit, the following e-book will be given to all participants:

	<p>Title : Boiler Operator's Guide ISBN : 978-0070365742 Author : Anthony Kohan Publisher : McGraw-Hill Professional</p>
---	---

Course Coordinator
