#### **Course Description**

This practical and highly-interactive course includes real-life case studies and exercises where participants will be engaged in a series of interactive small groups and class workshops.

You will learn how to design and develop laboratory documents and quality manuals. The quality manual will be examined as to its impact on laboratory operations and what purpose it serves. You will learn what information it should contain, what writing style is most effective and how to keep your documents and quality manual up to date.

This course also gives attendees the knowledge needed to establish an internal quality audit program as required by ISO 17025, and to initiate the sequence of activities involved in scheduling, planning, conducting, reporting on and closing out internal quality audits. Participants will be able to employ effective techniques of auditing and the ability to develop the auditing procedures, scheduling and recording systems needed to sustain the program.

Attendees will receive practical instructions on the development, implementation and long-term maintenance of an effective laboratory quality system.

In addition to the updated knowledge provided to course participants during the course period, each participant will go back to his/her laboratory equipped with an outstanding manual and 12 video tapes, compressed in one CD that can be used by the participant in training colleagues and subordinate on laboratory safety.

## **Course Objectives**

Upon the successful completion of this course, each participant will be able to:-

- Get certified as a "Certified ISO 17025 Auditor"
- Apply proper techniques in laboratory quality management and its standard operational procedures, accreditation, documentation and auditing (laboratory auditing) in accordance with the ISO 17025
- Recognize the requirements of an ISO 17025 accreditation and review the accreditation process
- Design and develop laboratory documents (SOP) & quality manuals and recognize the information they should contain, employ an effective writing style as well as maintain documents and quality manuals up to date
- Carryout an internal quality audit program in accordance with ISO 17025 as well as initiate the sequence of activities involved in scheduling, planning, conducting, reporting on and closing out internal quality audits
- Employ effective techniques of auditing and develop auditing procedures, scheduling and recording systems needed to sustain an auditing program
- Develop, implement and maintain a long term effective laboratory quality system in the long run in compliance with the requirements of ISO 17025

#### Who Should Attend

This course provides an overview of all significant aspects and considerations of laboratory quality management in accordance with the international standards for those who are involved in the laboratory accreditation, documentation and auditing. This includes laboratory managers, superintendents, supervisors, scientists, chemists, analysts and other lab technical staff. Further, the course will be of great value for quality managers, quality engineers, quality auditors and management representatives.

#### Training Methodology

All our Courses are including Hands-on Practical Sessions using equipment, Stateof-the-Art Simulators, Drawings, Case Studies, Videos and Exercises. The courses include the following training methodologies as a percentage of the total tuition hours:-

30% Lectures

**Practical Workshops & Work Presentations** 20%

30% Hands-on Practical Exercises & Case Studies

20% Simulators (Hardware & Software) & Videos

In an unlikely event, the course instructor may modify the above training methodology before or during the course for technical reasons.

#### Course Certificate(s)

(1) Internationally recognized Competency Certificates and Plastic Wallet Cards will be issued to participants who completed a minimum of 80% of the total tuition hours and successfully passed the exam at the end of the course. Successful candidate will be certified as a "Certified ISO 17025 Auditor". Certificates are valid for 5 years.

#### Recertification is FOC for a Lifetime.

## Sample of Certificates

The following are sample of the certificates that will be awarded to course participants:

(2) Official Transcript of Records will be provided to the successful delegates with the equivalent number of ANSI/IACET accredited Continuing Education Units (CEUs) earned during the course

#### **Certificate Accreditations**

Certificates are accredited by the following international accreditation organizations:-

The International Accreditors for Continuing Education and Training (IACET - USA)

Haward Technology is an Authorized Training Provider by the International Accreditors for Continuing Education and Training (IACET), 2201 Cooperative Way, Suite 600, Herndon, VA 20171, USA. In obtaining this authority, Haward Technology has demonstrated that it complies with the ANSI/IACET 2018-1 Standard which is widely recognized as the standard of good practice internationally. As a result of our Authorized Provider membership status, Haward Technology is authorized to offer IACET CEUs for its programs that qualify under the ANSI/IACET 2018-1 Standard.

Haward Technology's courses meet the professional certification and continuing education requirements for participants seeking Continuing Education Units (CEUs) in accordance with the rules & regulations of the International Accreditors for Continuing Education & Training (IACET). IACET is an international authority that evaluates programs according to strict, research-based criteria and guidelines. The CEU is an internationally accepted uniform unit of measurement in qualified courses of continuing education.

Haward Technology Middle East will award **3.0 CEUs** (Continuing Education Units) or 30 PDHs (Professional Development Hours) for participants who completed the total tuition hours of this program. One CEU is equivalent to ten Professional Development Hours (PDHs) or ten contact hours of the participation in and completion of Haward Technology programs. A permanent record of a participant's involvement and awarding of CEU will be maintained by Haward Technology. Haward Technology will provide a copy of the participant's CEU and PDH Transcript of Records upon request.

#### British Accreditation Council (BAC)

Haward Technology is accredited by the British Accreditation Council for Independent Further and Higher Education as an International Centre. BAC is the British accrediting body responsible for setting standards within independent further and higher education sector in the UK and overseas. As a BAC-accredited international centre, Haward Technology meets all of the international higher education criteria and standards set by BAC.
